

## SSLPost Solutions.

Secure, Simple & Smart.

### Hundreds of thousands of employees are now enjoying the benefits of epayslips.

The **SSLPost epayslip portal** offers a secure, auditable, cost-saving electronic method by which you can send PAYE documents including payslips, P60s, P11Ds and P45s. The portal can also be used to distribute a wide range of HR documents, user guides, employee handbooks and memos.

With salary documents at employee's fingertips; accessible anytime, anywhere and delivered within minutes, delivering payslips just got easier.

No postage, no printer consumables, no stationery and no change to existing payroll software – the cost savings start here!

### Exchange sensitive information securely with SSLPost

Businesses around the world recognise the importance of communicating sensitive information securely. Standard email over the internet is not secure enough to protect the sender and recipient from malicious attack, human error or repudiation.

**SSLPost secure email** locks up your sensitive documents from the point of issue to the point of opening; using encryption to International Standards. This easy-to-use web app secures those communications from prying eyes and underpins your data protection policies.

### Send sensitive documents, securely

The **SSLPost edocument delivery portal** allows you to securely send sensitive, time critical documents to single or multiple recipients, at the click of a button.

Create secure libraries and repositories for operations, planning & development, pensions, legal and human resources or a Subject Access Request Portal for GDPR compliance – the possibilities are endless!

## Your work stuff, all in one place

**myworksapp** from SSLPost, enables employees to access all their key workplace applications in one place via a simple user interface linked to your important applications; some describe it as an extranet app.

Many people prefer to access websites and logins via apps on their mobile devices. **myworksapp** enables them to do this from one, simple screen. In common with an extranet, it enables users to access a controlled subset of information that is defined by the organisation, linking to the company intranet, if desired.

Rather than searching through their apps to find what they are looking for amongst the icons, they simply open myworksapp on their mobile or desktop and access epayslips, P60s, P11Ds, HR and auto enrolment communications, work emails, workplace

## Reward your employees with mypayrewards

An easy and cost-effective way to thank your employees for their hard work and loyalty is with **mypayrewards**, from SSLPost.

It provides a fantastic, low-cost, employee benefits solution to reward your employees with a practical and tangible return that helps their budget go further. Employees can choose from a wide range of outlets and **pay less than the face value of the e-voucher or gift card**. Couple this with an online discount code from one of the popular voucher code websites (like topcashback.co.uk, vouchercodes.co.uk, discountvouchers.co.uk etc.) and it is a win/win!

## Making compliance simpler

Security of personal information is vitally important. When you choose an **SSLPost** solution, you are choosing to secure your data using enterprise-level encryption. Whether the data is in transit between a business and an employee or at rest on the server, your data is locked up tight using one of the best encryption technologies available in the world today.
