Introducing secure document solutions from SSLPost

Keeping employees engaged with award-winning secure solutions.

SSLPost specialise in secure, electronic delivery of confidential business documents for businesses of all sizes.

Our award-winning, modular employee hubs, house all work-related documents; epayslips, HR documents, business policies, user guides, documents requiring digital document approval, employee benefits and so much more.

Web-based and accessible 24/7/365 via mobile, tablet, laptop or desktop, our employee hubs are a cost-effective, user-friendly, and low touch answer to improve engagement with your employees.

Payslips, P60s, P11Ds, P45
Secure email
Contracts & agreements
HR documents, employee handbook
Employee benefits
Workplace pension
Document approval
Policies, procedures & processes
Guides & instructions

## Enjoy the benefits of epayslips

The **SSLPost epayslip portal** offers a secure, auditable, cost-saving electronic method by which you can send PAYE documents including payslips, P60s, P11Ds and P45s.

With salary documents at employee's fingertips; accessible anytime, anywhere and delivered within minutes, delivering payslips just got easier. No postage, no printer consumables, no stationery, and no change to existing payroll software; the cost savings start here.

Provide sensitive documents, securely

Create secure libraries and repositories for operations, planning & development, pensions, legal and human resources, or a Subject Access Request Portal for GDPR compliance – the possibilities are endless.

Exchange sensitive information securely with SSLPost

Businesses around the world recognise the importance of communicating sensitive information securely. Standard email over the internet is not secure enough to protect the sender and recipient from malicious attack, human error, or repudiation.

SSLPost secure email locks up your sensitive documents from the point of issue to the point of opening; using encryption to International Standards. This easy-to-use web app secures those communications from prying eyes and underpins your data protection policies.

Reward your employees with a great employee benefits package

An easy and cost-effective way to thank your employees for their hard work and loyalty is with employee benefits, from SSLPost.

Choose from three packages; simple shopping discounts, a full health, wellbeing, discounts and 24/7 GP package or salary sacrifice schemes. Reward your employees with a practical and tangible return that helps their budget go further.

Simple and cost-effective digital approvals

If you need employees to confirm acceptance of contracts, agree terms and formalise their compliance with policies, our digital document approval solution is ideal.

No more time-consuming paper exchanges, piles of filing or printing and posting.

You can also use our digital document approval solution for timesheets, offer letters, staff on-boarding and much more.

Your work stuff, all in one place

Designed for mobile use, **myworksapp** from SSLPost, enables employees to access all their key work-related documents from one, simple screen.

Let's face it, life is too short to be scrolling through screens, websites, or file folders to find what is needed at that moment; we want easy access at any time, from anywhere and for everything. **myworksapp** makes this a reality.
