

Employee Lifecycle Management (ELM) hub

ENGAGE:

employees, contractors; remote or in-office

CONNECT:

workflow, applications, third party services

SHARE:

policies, user guides, knowledge & insights

Keep employees engaged with our award-winning, secure ELMhub

ELMhub takes care of all the important documents & communications produced and circulated during your Employee's time with you; from their offer letter to their P45 & beyond.

Web-based and accessible 24/7/365 via mobile, tablet, laptop or desktop, our employee ELM hubs are a cost-effective, user-friendly, and low touch answer to improve engagement with your employees.

"By far the most popular reason for visiting ELM is to access payslips and Employee Benefits, that's why engagement is so high. We can piggyback on that engagement to deliver important updates and messages that may otherwise be missed in the noise."

Enjoy the benefits of epayslips

With salary documents at employee's fingertips; accessible anytime, anywhere & delivered within minutes, delivering payslips, P60s, P11Ds & P45s, just got easier. No postage, no printer consumables, no stationery, & no change to existing payroll software; the cost savings start here!

Provide important documents, securely

ELMhub delivers all documents an employee needs including HR communications, employee engagement, policies, operations, planning & development, pensions, legal & human resources & so much more.

Exchange information securely with SSLPost secure email

SSLPost secure email locks up your sensitive documents from the point of issue to the point of opening; using encryption to International Standards. This easy-to-use solution secures those communications from prying eyes and underpins your data protection policies.

Reward & recognise

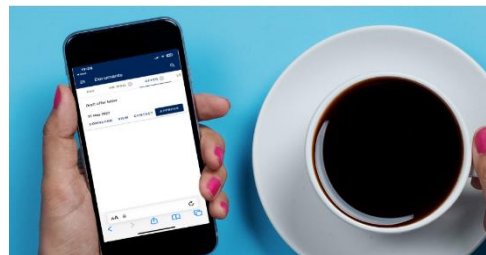

Choose from three packages; simple shopping discounts, a full health & wellbeing package including 24/7 GP or a wide range of salary sacrifice schemes.

Reward your employees with a practical & tangible return that benefits their physical, mental and financial health.

Simple and cost-effective esign

SSLPost esign is so easy to use and provides faster results than traditional methods. Administrators can import, view, track responses and download esigned documents from their admin dashboard if required.

Designed for a range of devices including mobile, desktop, laptop and tablet, users can view, approve, and download documents any place, any time; 24/7/365.

Connect & integrate

If you already have some solutions in place but want to pull them altogether for ease of management, convenience, reduced cost and higher engagement, ELMhub is ideal. ELMhub integrates with existing applications (e.g. payroll software) and incumbent service providers (e.g. employee benefits) making 24/7/365 access for users on any device, hassle-free.

Making it yours

When we create an ELMhub for you, it is configured to your specifications, content, policies and branding. Options include a choice of three styles, your own company pantone & logo & your selected content/services. We also offer two factor authentication, UK or EU hosting, domain choice & Single Sign-On.
